**Subject:** RE: Contractor Request for GKM Sampling Locations/Analytes

If both LaPlata county is in agreement regarding the confidentiality, I think we can include this requirement in the cooperative agreement to be on the safe side.

Cinna, can you check to ensure such requirement doesn't explicitly violate anything in subpart O and let us know if you have any additional thoughts on this?

Thanks,

Joe

**Subject:** Contractor Request for GKM Sampling Locations/Analytes

Cinna and Joe,

Colorado ICP were contacted by Wright Water Resources (?) who is doing work for the LaPlata County folks. They requested the sampling locations and analytes that EPA is using, presumably in LaPlata. We directed Colorado ICP that, until LaPlata County is in a Cooperative Agreement with EPA, we would not provide the locations or analytes to WWR. This is likely to be brought up at the regular coordination meetings that Patti and Mike are having with LaPlata County at 4 pm today.

My question is this: Is there any kind of confidentiality requirement for LaPlata County in a Cooperative Agreement that would follow through to their contractor(s)? If not, can we

include one so that we can provide the locations/analytes that they will eventually be wanting? Please let me know at your earliest convenience. Thank you, lw
